

THE WEATHER.
For Newark: Rain or snow to-
night; colder, Friday cold.

NO ACTION
TAKEN ON
QUESTION

Of Recognition of Mexican
Government by United
States

LEFT OVER FOR WILSON

Assurance Given of Protection
Along the Border
Line Against In-
vasion.

Washington, Feb. 27.—The appointment by President Huerta of a new ambassador to the United States in the person of Emilio Rabasa is expected to have the effect of bringing to a speedy issue the question of recognition by the United States of the provisional government of Mexico.

Up to the present time the relations between the two governments have been on a de facto basis and the administration has not been committed in any sense to a political recognition of the Huerta government though Ambassador Wilson has freely transacted business with it.

Now that the threatened revolt of Governor Carranza of Coahuila has actually taken form the military authorities here have concluded that it is yet too early to carry out their plans for any considerable reduction of the American military force on the Mexican border.

Washington, Feb. 27.—Political recognition of the new provisional government of Mexico is not a matter requiring immediate consideration at the hands of the secretary of state, and it was made practically certain that this is another subject that will be left as a heritage to the next administration. In the opinion of state department officials, the United States has no interests in Mexico that will suffer by withholding the full recognition, and also all necessary business can be discharged under the existing working arrangements that Ambassador Wilson has set up.

This amounts to the recognition of a de facto condition. It in no wise commits the United States government to an acknowledgment of the legality of the Huerta government, and that question must be determined hereafter entirely upon the basis of performance.

If President Huerta is able to conduct his government in regular constitutional form; to maintain undisputed possession of his capital and to extend full and ample protection to foreign life and property in Mexico, formal recognition will not be withheld. Because some doubt exists on the latter point, great deliberation is exhibited in reaching a decision. The United States government probably will be strongly influenced in its treatment of this question by the extent of the measures taken by the provisional government of Mexico to have a full and fair election, with the object of installing a permanent constitutional government.

It is precisely such an omission on the part of the de facto government in China that has resulted in the withholding of the formal recognition of Yuan Shi Kai's government by Washington.

In the course of a conference with the members of the senate committee on foreign relations, at which Senators Culberson and Sheppard of Texas were present, Secretary of War Stimson and Major General Leonard Wood gave assurance of such a disposition of troops along the Texas frontier as will insure protection of that section against invasions by marauders from Mexico. They said that seven regiments would be placed along the Mexican line in Texas.

They explained that the removal to Galveston of the detachments from El Paso and other Rio Grande points had been rendered necessary by the crisis in the City of Mexico. With the accession of General Huerta to the presidential chair, they said it had looked for a time as if active intervention might be necessary, and, with this possible end in view, it became desirable to get as large a force as possible to the nearest point of embarkation at the earliest possible moment.

On this account the nearby garrisons were rushed to that place. Now that the critical time had passed, they expected that time could be taken to bring troops from a greater distance to Galveston. This would be done, and the two officials expressed confidence that there would soon be no reason for complaint. The Texas senators, as well as the members of the foreign committee, expressed satisfaction with the assurance given.

Consular and other reports to the state and war departments today indicate the existence of small foci of rebellious spirits in several quarters in Mexico, but on the whole, there

appeared to be a general conviction of the ultimate success of the new administration.

Emilio Rabasa has been appointed ambassador of Mexico to the United States.

PLEASED WITH PEACE EFFORTS
Mexico City, Feb. 27.—Keen satisfaction was displayed at the palace last night over reports which indicated the early disappearance of revolutionary disturbances in the North and in portions of the South.

It is not expected that the Zapatista problem, especially in the state of Morelos, will be solved immediately, but several minor chiefs have announced their willingness to serve the government.

Government officials realized the probability of a difficult campaign in the South, but President Huerta, who commanded the federals in the campaign which most nearly resulted in the ending of the Zapatista trouble and was checked only by Madero's benevolent interference, believes he knows the situation sufficiently well to end the trouble.

The Zapatistas have added to the list of towns they already occupied Amecameca, on the interoceanic railway 30 miles southeast of Mexico City, and three others of minor importance. Raiding continues with the usual atrocities, but troops are in pursuit of the marauding bands, for whom little rest is promised.

To the report that Emilio Madero was killed is added a rumor that his brother Raul has met the same fate at Torreón. Both these young men were actively allied with Carranza and, if true, their taking off doubtless will have a deterrent effect on rebel activity in that district.

In the capital rumors of plots and counter plots continue, but President Huerta appears to have an excellent grip on complete harmony with General Felix Diaz, who desires the re-establishment of peace as much as or more than any one, as he is preparing for his campaign for the presidency in the general elections. Friends of Diaz met this afternoon and formally launched his candidacy.

El Paso, Tex., Feb. 27.—Francisco Villa, whom the late President Madero converted from banditry and then made him a general of insurgents, is reported to have taken the field in Sonora, seeking vengeance for the death of his former chief. He disappeared yesterday from El Paso, where he has been sojourning since his escape from the penitentiary.

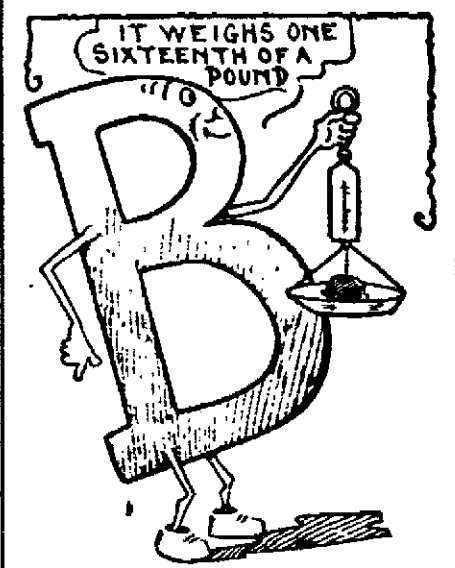

RAISING FUNDS
FOR OLD GUARDS'
WASHINGTON TRIP

Columbus, O., Feb. 27.—Approximately \$400 has been raised by private subscriptions and the Old Guard concert at Memorial Hall last night for the purpose of sending the organization of veterans to the presidential inauguration Tuesday in Washington. The sum of \$1600 is needed. Efforts will be made to secure a legislative appropriation.

Among the donors up to this time are Mayor Newton D. Baker of Cleveland and Rev. Billy Sunday. It is expected that more subscriptions will be received today by both the Columbus and Newark companies engaged in raising funds. Companies A and B of these two cities, respectively, are the only surviving companies.

Clark C. Doughty, enrollment secretary of the senate, had charge of the program at Memorial Hall last night. Numbers were rendered by the Democratic Glee Club, the Republican Glee Club Quartet, the Old Guard Drum Corps, the Trinity Boys' Choir, John Duffey, Circleville, magician; Misses Mary and June Winters, Columbus, impersonators, and Amor W. Sharp, Columbus, baritone.

FEAR STEAMER
HAS FOUNDERED

Port Arthur, Texas, Feb. 27.—The German steamer Theresa Horn, which left this port 35 days ago for Rotterdam, with a cargo of oil, has not been heard from. It is feared here she foundered in the gulf.

HOUSE HAS
PASSED THE
GREEN BILL

Administration Measure
Goes Through Without
Dissenting Vote

EFFECTIVE JAN. 1, 1914

The Democratic Ranks Held
Solid Against the Amend-
ments—Twice-a-Month
Pay Measure.

Columbus, Feb. 27.—Senator William Green, father of workmen's compensation in this state, sat beside Speaker Swain yesterday and joyfully watched the house duplicate the action of the senate and pass the compulsory compensation bill by unanimous vote. All members who were present voted for the Green bill and only two, Mr. Holl of Auglaize and Mr. Appenzeller of Darke were absent.

The official record will show not a single senator or representative voted against this most far-reaching measure in its effects on Ohio industries and laborers, which will be passed this session. The passage of the bill yesterday was just within six months of the vote by the people of the power to pass it.

It will go into effect January 1, 1914, superseding the present optional law. By its requirements, every employer of as many as five employees, including the state and other governmental employers, must compensate an injured employee or his dependent heirs either by means of contribution to the state liability board of awards or by a fund of the employer or mutual association of employers administered under state direction.

Under the floor leadership of Mr. Kilpatrick of Trumbull, the Democratic ranks were held solid against amendments, though the only one considered admittedly designed to remedy a real defect in the measure. Eighteen of the Republicans voted for the proposal of Mr. Diser of Mahoning to reduce the chance of ambulance chasers getting litigation by making clear whether it was contributory negligence as defined in the Norris law, or as defined in common law, which an employer could plead if the employee sued under the option given him when hurt by the willful act of the employer or his failure to comply with lawful requirements.

Mr. Diser filed the petition of employers of 25,000 workmen in his county in favor of this and a similar amendment and applied the epithet "liar" to men responsible for the report that he intended to offer amendments in the interest of liability insurance companies. He showed that the supreme court had said the language he wished to clarify was capable of most any construction and would be a temptation to an employee, wheedled by a lawyer, to go to court and perhaps get nothing.

Mr. Vanderhelde of Montgomery charged in effect that the Republicans were insincere, but when challenged by Mr. Reid, the Republican leader, said he would admit they were sincerely for the bill because it was good politics.

After a vote had been ordered and it was too late, Mr. Plumb of Delaware tried to offer an amendment to exempt school teachers from the bill. Mr. Kilpatrick graphically described the history of compensation legislation in this state and urged that no amendments be adopted.

Mr. Chapman of Montgomery said the report that the bill was unsatis-

MERCHANTS WANT
YOUR GOOD WILL.

The reputation of every merchant depends on the good will of his customers. The real merchant sees that everything he advertises is exactly as it is represented to be. In this way he establishes confidence in his store, his goods, and his advertisements and increases his business steadily and surely.

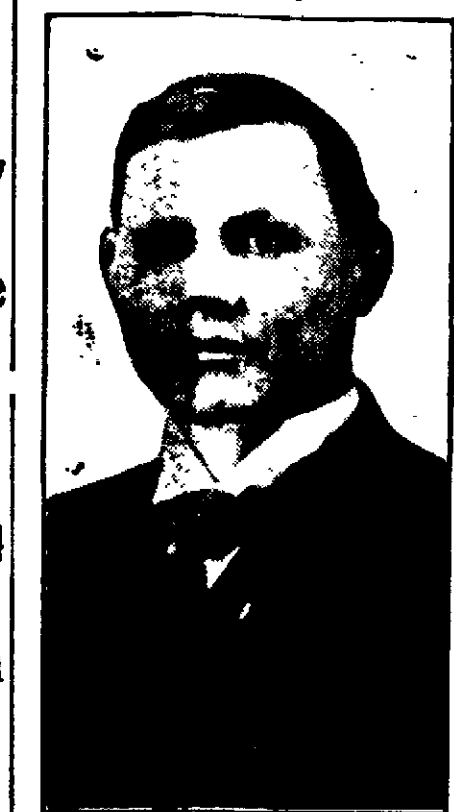

He knows that no woman will return to his store if she does not get right treatment, whether in the quality of the goods or the service of the store.

And her influence goes further, for she can tell her friends.

Read the advertisements in THE ADVOCATE closely and constantly every day. They contain timely announcements of the merchants who have the confidence and good will of the city.

They are ready to serve you with the best of everything at the lowest price for which it can be sold. You will be sure of absolute satisfaction when you trade with them.

factory to union labor was incorrect. Mr. Bigelow or Hamilton eloquently spoke of the "great day" when the claims of the workers of peace are to be considered," and urged that the

WILLIAM GREEN.

bill be amended "by our experience, not by our theories."

Under suspension of the rules the bill passed second and third readings, and, as soon as signed by the presiding officers, will go to Governor Cox, whose insistence on the compulsory feature made possible yesterday's vote.

When the Green law becomes effective 6,000 agents for 22 or 23 liability companies in Ohio will be affected. It is generally admitted the new law will come as a serious blow to all private companies, practically putting them out of liability business in this state.

After Representative A. Ross Read of Summit had spoken 49 minutes on his bill to abolish capital punishment, the House recessed to 3:30 this morning, when consideration of the Read

WILLING TO
SURRENDER
FORTRESS

St. Petersburg, Feb. 27.—Dispatches received here today confirm the report that the Turkish government has expressed willingness to surrender the fortress of Adrianople. Russia will not support Bulgaria's demand for a war indemnity from Turkey.

Sofia, Bulgaria, Feb. 27.—Turkey has at last signified her readiness to negotiate for peace with Bulgaria on the basis of the cession of Adrianople. The Turkish government has solicited the good offices of Russia. The Russian government today transmitted to the Bulgarian government a message received from Constantinople containing the Turks' proposal for fresh negotiations. The Bulgarian cabinet met today to discuss the subject.

MOTHER SUICIDES
AT BABY'S FUNERAL;
FALLS INTO GRAVE

Philadelphia, Feb. 27.—In the most dramatic manner conceivable a grief-stricken mother ended her life at the funeral of her child.

As the body of her seventeen-months-old son Nathan was being lowered into a grave in Nar Nebo cemetery, Mrs. Fannie Pollock raised a bottle of poison to her lips and drained the contents, pitching headlong into the grave on top of the casket. She died in a few minutes.

Mrs. Pollock left the babe playing on the floor of the kitchen last Thursday. He crawled to a range and his clothing caught fire. She smothered the blaze as best she could and took the baby to a hospital. For three days she sat at her babe's bedside, while the child's life gradually ebbed away.

WHAT ARE YOU DOING?
By Chalmers L. Prescott.

What are you doing to help Newark attract that army of home-seekers, factory-builders and investors? What are you doing to help Newark realize something on its opportunities?

If your city is to get more home-builders and business-builders it must have the help of every citizen in making an intelligent and persistent effort to get them.

There are more industries seeking new factory sites, advantages in water, fuel, power, transportation than ever before. Are you doing your best to help Newark get its share?

WILL CONDEMN SHERWOOD
SITE AND BUILD NEW
POSTOFFICE ON CORNER

(Special to Advocate)

Washington, D. C., Feb. 27.—The Federal government is about to commence condemnation proceedings against Newark city and the Sherwood Improvement Company, with a view to acquiring title to the little park corner, at East Main and First streets, which was given to Newark after the government's purchase of the Sherwood site for a Federal building.

The government's purchase of this park means that the new postoffice will be erected upon the corner and not upon the rear of the Sherwood lot as originally contemplated. Assistant Secretary of the Treasury Allen said today that no problem has been more perplexing to him than the Newark postoffice site.

He sent Mr. Field to Newark recently to inspect several proposed sites, but concluded in view of the government's ownership of the Sherwood site that it would be better to acquire the park just west of the Sherwood hotel and build the structure on the corner rather than sell the Sherwood site at a great sacrifice and go elsewhere, or build upon the rear of the Sherwood lot.

Mr. Wetmore, of the law division of the Treasury department, rendered a written opinion to Secretary Allen today that the government has the right to start condemnation proceedings and he recommended such action.

Mr. Allen told the Advocate today that he would immediately urge the Department of Justice to begin proceedings and take steps to have action commenced in the Federal court at Columbus.

APPROPRIATION
BILL IS PASSED
BY THE SENATE

Washington, Feb. 27.—After an all-night session filled with a bitter struggle over public building expenditures, the senate at 3:50 o'clock this morning passed the public buildings appropriation bill, carrying an increase of nearly \$16,000,000 over the \$25,000,000 bill as passed by the house.

One sweeping amendment inserted just before passage at the suggestion of Senator Kern of Indiana, prohibited the erection of a building or the purchase of a site for postoffice purposes exclusively in any city where the postal receipts were less than \$10,000 a year. This change would hold up indefinitely the erection of 60 or 70 buildings authorized in the bill.

HIGH SCHOOL
TEAM ENTERS
TOURNAMENT

The Newark high school basketball team went to Delaware Thursday afternoon where they will participate in the interscholastic basketball tournament given under the auspices of Ohio Wesleyan University. Teams from Ohio schools will play a series of games Thursday night and Friday and next week another series will be played. The state championship will be decided at the finals to be played at a later date.

The Newark boys have a good record of games won this season, having lost but two games this season. The team's supporters expect its members to give a good account of themselves in the preliminaries and be able to participate in the finals.

VACANCY ON THE
PROBATE BENCH
IN JEFFERSON

Columbus, Feb. 27.—Attorney General Hogan today gave an opinion that there is a vacancy on the probate judge bench in Jefferson county because J. C. Belknap, judge-elect, who was indicted for violation of the corrupt practice act, has been denied an election certificate. Governor Cox has power to fill the vacancy.

Later statistics show about 5,527 reports of lightning stroke in this country a year.

CABINET IS
TO CONTAIN
LABOR MAN

Is Latest Information
Coming Direct From
Trenton Today

SECRETARY OF LABOR

Is Newly Created Department
Which Will Probably Be Filled by
Rep. Wilson.

Washington, Feb. 27.—The pleas of union labor for representation at the council table of the president of the United States may be recognized in the selection of Representative William B. Wilson of Pennsylvania to be secretary of the newly created department of labor.

This information along with our reliable advices came to the political leaders at the capitol today direct from Trenton.

Representative Wilson has been endorsed by the American Federation of Labor and was at one time secretary of the United Mine Workers of America.

From the same sources it was learned that William C. Redfield of Brooklyn might be a member of the cabinet. Just what portfolio he is being considered for was not divulged. About three portfolios—agriculture and war—little information is known.

Though William A. Glasgow, a Philadelphia lawyer, and Edgar Farrar of New Orleans, president of the American bar association, are reported to be under consideration of the president-elect, the most reliable information obtainable today is that, James McReynolds of New York will be the new attorney general. He was engaged to prosecute the government's suit against the tobacco trust.

Confirmations come from every side that the president-elect has picked William J. Bryan for secretary of state; William G. McAdoo for secretary of the treasury; Joseph Daniels for secretary of the navy, and Representative Albert Burleson of Texas for postmaster general.

The name of Louis D. Brandeis is still known to be uppermost in Mr. Wilson's mind for the secretaryship of commerce. It is said that Mr. Wilson from the first was anxious to place a Progressive Republican in his cabinet and the selection of Mr. Brandeis is believed to be a result of that desire.

PARIS AUTO
BANDITS ARE
FOUND GUILTY

Paris, Feb. 27.—The trial of the gang of 22 auto bandits who held Paris in terror for months, ended today, after 21 days.

A verdict of guilty was returned against 18 of the prisoners on counts including murder, arson and robbery. Four of the accused, including three women accomplices, were found not guilty by the jury.

Four of the bandits were sentenced to death by the guillotine and the others were sentenced to long terms of imprisonment.

MRS. SWOPE TELLS
OF SUFFERING OF
HER DEAD SON

Kansas City, Mo., Feb. 27.—Tears came to the eyes of most of the jurors in the Hyde murder trial, as Mrs. Logan O. Swope told of the death of her son, Christian. She said she could not bear to go into the room when Christian was in convulsions, but waited outside until he was easier.

Mrs. Swope told of extreme suffering by Margaret Swope after an injection into her arm of what the state asserts was pus from the dead son. The doctor who gave the injection was Dr. Campbell.

There has been no corroborated outburst in 20 years," Mrs. Swope testified.

CLAIM STRIKE
LOSING FORCE

Akron, Feb. 27.—Several inches of slush in the street interfered with parades and picketing by the strikers today. The manufacturers are citing the fact that the number of pickets was again reduced, and claim the strike is losing its force.

AMUSEMENTS

AL. H. WILSON.
Al. H. Wilson, the German comedian, in "It Happened in Potsdam," a new German comedy, will be the attraction at the Auditorium tomorrow night. The locale of the play will be in the city of Potsdam, Germany, and the scenic embellishment, and the star with an unusually large company of players. Mr. Wilson has composed several new songs for the production. There is a new amusement served up today that is more amusing and delightful than a good comedy, and it is well played. The songs make it always interesting and refreshing, and when presented by a comedian of Mr. Wilson's ability it is all the more enjoyable. His droll German dialect and guttural r's rolling from his throat is a constant source of amusement for his audience.

The Hagenbeck-Wallace Circus in Pictures.
Auditorium patrons will have an opportunity of seeing the Hagenbeck-Wallace Circus in pictures on Monday and Tuesday, March 3 and 4. This is said to be one of the most remarkable pictures ever seen, and is shown in four reels, giving the great shows complete, from the arrival of the advertising forces to the races, every scene true to life and actually photographed while the shows were giving exhibitions. It is a wonderful treat for the children and very interesting for the grown-ups. There will be a matinee each day and scholars will have special time to see the pictures after school. The prices of admission will be 10c and 10c cents.

"The Woman."
David Belasco, the wizard of the stage, will this season give the patrons of the Auditorium an opportunity to see one of his most successful productions, "The Woman," a play of American life by William C. DeMille, which has created a sensation wherever it has been seen. The play has as a background the progressive movement in congress and the story is of intense interest to everyone. It deals with an attempt of certain politicians in Washington to defeat a certain progressive leader and incidentally to ruin a woman's name. The defeat of the players by a humble telephone operator makes the story of the play. "The Woman" ran last season for nine months at David Belasco's Republic theatre in New York and six months in Chicago. The new cast includes Claude James, Sadie, Hugh, Marion, Barney, Gladys, Howard, Howell, Hansell, Haller, Thomas, Homer, Granville, Dancer, Raymond, Kalman, Maria, Frank, Austin, Kurt, Kupfer, Austin, and Marion. Wood, all of whom scored heavily in "The Woman" last season. This

GEORGE SIDNEY
In "Busy Izzy" at the Auditorium March 8.

which is constructed for laughs, surprises only with music and song as a side line. The following cast is assured that "Busy Izzy" will be a big success and that the audience will enjoy every minute of it. In the cast are: George Sidney, Marion, Barney, Gladys, Howard, Howell, Hansell, Haller, Thomas, Homer, Granville, Dancer, Raymond, Kalman, Maria, Frank, Austin, Kurt, Kupfer, Austin, and Marion. Wood, all of whom scored heavily in "The Woman" last season. This

AL. H. WILSON IN "IT HAPPENED IN POTSDAM," AT AUDITORIUM FRIDAY EVENING, MARCH 8.

Orpheum Theatre.
Another big vaudeville bill will be the feature for the last three days at the Orpheum. The Harrison Sisters will pose in living pictures; Bayard and Rowe are comedy entertainers; the Imperial Trio has a very fine act, comedy dancers and hoop rollers; Miss Gracie Faust in a standing act will prove a big success. There will be a variety show on the stage Friday night at the last show and 25 big prizes will be given away.

The ladies' sewing machine will be on Friday afternoon at 2:15. Don't miss the Sunday program at the Orpheum this Sunday. The big feature will be "Regeneration," in three reels, a picture every mother should see. Capt. Rose and his Patent Aeroplane will be in two reels. A great sensation and a two-reel Nelson 101 Western and a big singing act.

Cavalieri En Tour.
Lina Cavalieri, the world-famous grand opera soprano, who is returning to America after an absence of three years for an extended concert tour of the United States, will be presented at the concert to be given at Memorial Hall March 5. The program numbers for the concert will be:

- Overture, "L'Allegria in Anili" — Gluck.
- Concerto Grosso and Basso Continuo for strings — piano played by Dr. Kunwald — Handel.
- Overture, "Leonore No. 3" — Beethoven.
- "L'Ancient Sorcier" — Dukas.
- Overture, "Mignon" — Thomas.
- Pearl Grays No. 1 — Grieg.
- Overture, "Tchaikowsky."
- In addition to being a conductor, Dr. Kunwald is a pianist of first rank. The Handel Concerto Grosso No. 4, for strings and piano forte, will present Dr. Kunwald at the piano.
- After the fashion which prevailed in the days of Handel himself, the Handel concertos are scored for strings in the usual manner, but the accompaniment which Dr. Kunwald plays is known as a figured bass, or, in other words, the occasional notes of the chord is indicated, and the skill of the pianist consists in the elegant and appropriateness with which he interprets the accompaniment from the meagre indications given.
- In the days of Handel, this practice was universal. The cheapness of printing, and its corresponding increase of concert musicianship, has effaced such performances as those who attend the concert in Columbus will witness.
- Today, to be wise at all, except in organ music, is exceptional. To improvise a strong forte accompaniment for the music of a stringed band is almost unique.
- The Columbus manager is T. T. Frankenberg, who will be in charge of the seat sale at McClelland's book store on and after March 1.

CHICAGO OPERA CO.
WILL SING "LUCIA"
IN COLUMBUS APR. 30

It is with the highest sense of duty that the lovers of real grand opera learn that an opportunity will be given in the near future. Hereafter, two great organizations, the Metropolitan of New York and the Chicago Grand Opera company, have come within 175 miles of Newark during their very short tours at the regular season, which closes at the middle of April, generally.

It was necessary to go to Pittsburgh, Cleveland, and of course, losing time and actual cost of transportation and seats, the trip is only available to those who have other most intense fond of the class of musical entertainment, and could then hear it only at a huge sacrifice, or another class who have the financial resources, but who do not care for this class of composition, or go as one would to a social function (and get just about as much out of it).

To go to Columbus and hear a magnificent production of "Lucia" will cost little more than to attend

a first class performance in Newark. Through the efforts of public-spirited citizens, the Chicago Grand Opera company is practically certain to visit Columbus April 30, to give a performance of Donizetti's "Lucia de Lamermoor."

The guarantee fund to insure the opera company against any loss is now being raised, and about two-thirds of the amount needed has already been raised.

The performance April 30 will be given at the Hartman theatre and the title role will be sung by Mme. Luisa Tetrazzini. Aristodemus Giorgini, lyric tenor, will sing the music of Edgardo, and the role of Ashton will be sung by Giovanni Polese, baritone. A grand ballet divertissement will conclude the bill, with Signorina Rosina Galli as premiere danseuse.

The entire organization, under the general management of Andreas Dippel, will be brought to Columbus, including the famous orchestra guided by Cleofonte Campanini.

NEWARK GIRL MAKES GOOD IN LEADING PART

"Baby Mine," a William Brady attraction, was given its second production in this city Wednesday evening, with Marie Palmer, a Newark girl, in the stellar role.

Miss Palmer is a daughter of Mr. and Mrs. Rufus L. Palmer of Maiden avenue, and the wife of Jimmie Bliss, the well known comedian, who is cast for the part of Jimmy Jinks in "Baby Mine."

Miss Palmer has played the leading role but three times, twice on occasions when the leading lady was indisposed. She has been the understudy for Miss Nanon Welch for the past season.

Much depended last evening on the interpretation of the difficult part of Zole, the Newark young woman, in fact, her future was at stake, for it was either to elevate her to the rank of stardom or let her remain quiescent in the minor roles. Mr. George Gerrard, manager of the company and an associate with Mr. Brady, was present to act as judge and jury, and also to pass sentence on the fair debutante, for at the end of Holy Week, Miss Welch leaves her present situation with the company. The verdict of Mr. Gerrard was that Miss Palmer more than made good, and this view met the hearty approval of the entire audience.

Miss Palmer is a petite, pretty, winsome little woman, lithe and graceful, and interpreted the part of Zole almost to perfection. Indeed, considering the fact that she had had only one rehearsal, it was truly remarkable. Her many local friends will be pleased to learn that on March 24 she will enter the ranks of stardom, succeeding Miss Welch, and under the direction of one of the most noted theatrical promoters in the country will undoubtedly fasten to the front and be heard of in the not distant future as one of the leading young actresses of the histrionic profession.

Absolute Truth About The Great Kidney Remedy

Several years ago I suffered with bad pains in my back. I was very restless, often getting up several times during the night. My limbs were swollen and I dropped in weight to 117 pounds. I consulted a well known Norfolk physician and he stated that I had a very bad case of kidney trouble.

I saw your advertisement in the paper and purchased a bottle of Dr. Kilmer's Swamp-Root from a druggist, after he recommended it to me. After I took three bottles, I felt greatly relieved. I have taken Swamp-Root since at different times. I gained in weight to 200 pounds, and I am well and have been ever since I commenced taking Swamp-Root.

Very truly yours,
W. J. BARROW,
Farmville, Va.

I, A. M. Barrow, a Notary Public in and for the County of Prince Edward, in the State of Virginia, do certify that W. J. Barrow, whose name is signed to the foregoing writing, bearing date January 15th, 1912, personally appeared before me in my County aforesaid and made oath that the said writing is true in substance and in fact. Given under my hand this 15th day of January, 1912.

A. M. BARROW, Notary Public.
We sold Mr. W. J. Barrow most of the Swamp-Root in question and have personally heard him speak of its action in most complimentary terms.

WHITE DRUG COMPANY,
By E. W. Sanford.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.
Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. I will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Newark Daily Advocate. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

CHECK WORKERS GET THE COIN

Columbus, Feb. 26.—A man and woman, accompanied by a two-year-old child, successfully obtained two local bank checks Tuesday by purchasing a good and offering in payment checks amounting to no fund. The couple secured more than \$20 besides a quantity of merchandise. The banks returned the checks yesterday, marked "no good." It is claimed that a couple in a baby answering to the description of the couple operating here were arrested in Philadelphia. The checks were drawn on the Republic Iron and Steel company.

BASKET BALL IS DISCIPLINARY IN PUBLIC SCHOOLS

Columbus, Feb. 27.—Basketball games are the best disciplinary devices ever invented, in the opinion of Miss Lenore E. Lockhart, principal of the Livingston avenue school. The public recreation department recently installed baskets and backstops in the school yard and the boys have been playing with them every moment when out of school. Miss Lockhart acts as referee.

"We used to be compelled to scold the boys a bit when they misbehaved in line while marching into the building," she said. "Since the play apparatus has been installed, however, they are as good as young angels."

LEGISLATURE

(Continued from Page One.)
bill will be continued. The author read a letter from Mayor Baker of Cleveland exposing capital punishment.

Cars Must Have Comforts.

All necessary for the measure by Representative Kilpatrick of Trumbull county requiring interurban cars running a distance of more than ten miles to be equipped with sanitary conveniences to become law is the signature of Governor Cox. The senate passed the bill yesterday.

Twice-a-Month Pay Measure.

Railroads and other corporations will have to pay their employees every two weeks, instead of once a month, in a bill by Senator Hudson of Seneca county becomes a law. It was passed by the senate yesterday. An attempt by Senator Weygant to have farmers exempted from the provision of the bill was defeated.

The Senate also passed bills by Lloyd of Franklin, allowing milk dealers to label their milk on the top of the retainer, instead of having their names blown into the sides of the bottle; and authorizing the employment of an additional instructor in the State School for the Blind to aid pupils who are taking a higher course in a college or university.

Insurance Probe Fund Out.

When Senator Mooney's resolution authorizing a legislative probe of fire insurance rates in the state and carrying with it an authorized appropriation of \$5,000 with which to pay expenses, came up for adoption in the senate yesterday, Senator McDermott called a halt by offering an amendment to cut \$2,000 from the proposed amount. Senator Davidson of Hocking county, a Democrat, sprang to the support of Senator McDermott and secured notice on his Democratic colleagues that they had better tighten the purse strings.

The amendment was adopted by a large majority. The resolution was then adopted unanimously.

Will Report Firemen's Bill.

Yielding to the pressure exerted by city fire departments, the house labor committee yesterday voted to report the Chapman firemen's two-platoon bill. In the last legislature the bill was beaten. It will be opposed on the floor because it will double the pay roll of every fire department in the state and because it is against home rule, each city now having ample power to install a double platoon system if it desires.

The committee recommended the bill in face of the statement by Representative Chapman of Montgomery that he had no doubt the governor would veto it.

Kill Live Stock Board Bill.

Senator Cook's bill providing for the creation of a live stock board with powers to inspect all cattle and dairies was officially killed in the senate yesterday. The vote to postpone action indefinitely practically was unanimous.

Tuberculosis Bill Gets O. K.

Senator Weygant's bill authorizing the establishment of bureaus of tuberculosis under the department of the state board of health was unanimously reported for passage yesterday. The bureau is to make a study of tuberculosis, seeking a remedy, and to recommend preventive measures.

Read Bill Defeated.

The lower house of the legislature today defeated the Read bill, which would abolish capital punishment, by a vote of 55 to 63. Representative Bigelow, who spoke for the bill, intimated that Governor Cox did not favor capital punishment.

Every home needs Sani-Flush for the health and comfort of those in it. It odorizes, disinfects, makes closet bowls sanitary. Shake a little of this powder into the toilet bowl twice a week.

NOSTRILS AND HEAD STOPPED UP FROM COLD? TRY MY CATARRH BALM

Instantly Clear Air Passages; You Breathe Freely; Drain Headache Goes; Nasty Catarrhal Discharge Stops.

"Try 'Ely's Cream Balm'." Get a small bottle, anyway, just to try it—apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous, dropping into the throat and raw dryness is distressing, but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear. Hall's Drug Store, 10 North Side Square.

PERSONALS

J. D. Keely and family spent Wednesday in Columbia.

L. R. James is quite ill at his home on West Locust street.

David Spitzer of Toledo was a visitor in Newark on Wednesday.

OHIO BRIEFS

HARDEN—Mrs. Mary Barnes sues Jackson township school board for \$300 damages, alleging they refused to permit her son, Isaac, to attend school.

MARION—Lee Moran, 12, whose parents and 3-year-old brother were killed by gas fumes, dies at City hospital from effects of the gas.

EAST LIVERPOOL—Ralph Laughlin dies from burns received when gasoline "blow torch" exploded.

LIMA—F. S. Salvo, Erie brakeman, crashed to death between bumpers on engine and freight car.

TOLEDO—State hospital last night searched for Mrs. Maude Stephenson, victim of melancholia, who escaped from the institution.

CAN ALMOST SEE PIMPLES GO

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

You don't want to wait forever and a day to get rid of your pimples or other skin eruptions. You want to get rid of them right now. Next week you may want to go somewhere where you wouldn't like to have to take the pimples along.

Pimples Quickly Disappear from Face, Arms, Neck and Back, and Insure a Beautiful Complexion.

You can get rid of them just in time by taking Stuart's Calcium Wafers. These wonderful little workers have cured bad boils in three days, and some cases of skin diseases in a week.

They contain as their main ingredient most thorough, quick and effective blood cleanser known, calcium sulphide. Remember this, too, that most pimple treatments reek with poison. And they are miserably slow besides. Stuart's Calcium Wafers have not a particle of poison in them. They are free from mercury, biting drugs or venomous opiates. They cannot do any harm, but they always do good—good that you can see in the mirror before your own eyes a few days later.

Don't be any longer humiliated by having a splotchy face. Don't have strangers stare at you, or allow your friends to be ashamed of you because of your face.

Your blood makes you what you are. The men and women who forge ahead are those with pure blood and pure faces.

Stuart's Calcium Wafers will make you happy because your face will be a welcome sight not only to yourself when you look into the glass, but to everybody else who knows you and talks to you.

Stuart's Calcium Wafers are sold by all first class druggists at 25 cents a box. They are very pleasant to the taste and in results are truly remarkable.

GOATS TO CHEAPEN LIVING.

Cattlemen Declare Meat is as Good as Beef and Less Costly.

El Paso, Tex.—El Paso people and all other people in these United States who complain of the high price of beef in the retail markets should eat more goat meat. "It is cheaper and just as good when properly prepared and properly cooked," is a remark which is heard in cattle circles at times and one which is becoming more frequent.

"Cattle prices are going to come down with a crash pretty soon if these continued sky high figures are not checked, because the people will quit buying beef," is another remark heard at times.

"Goats—eat goat meat," says the goat man. On the Kansas City market a few days ago a bunch of 300 New Mexico yearling sheep, which averaged seventy-nine pounds, sold for \$5.35 a hundred. On the same day in the same market a shipment of 124 goats, which averaged seventy-four pounds, sold for \$3.10 a hundred.

STORMY CAREER OF FELIX DIAZ

Leader of Mexican Revolt Has Had a Charmed Life.

DEFEATED MANY TIMES.

Greatly Resembles His Uncle Porfirio in Personality and Deeds—More Liberal in Views Than Former Dictator. Appeals to Native Love of Spectacular—Just Escaped Execution.

City of Mexico—Colonel Felix Diaz, whose attack on Madero led to General Huerta's election as provisional president, is one of the most remarkable personalities Mexico has ever produced. He is the nephew of Porfirio Diaz, who for more than thirty years was dictator of Mexico. His father was General Felix Diaz, who was slain in 1871 in the revolt of the Diaz faction against President Benito Juarez.

Not only does the younger Diaz physically resemble his banished uncle, but their careers up to the present are remarkably parallel. Admirers of Porfirio Diaz have said that since Richard Coeur de Lion the world has produced no man of so thrilling a personal and military career as "the man of Mexico," as he was called. He was the hero of fifty pitched battles, a leader of the forlorn hope of Mexico against the trained armies of France in the war of the intervention, when Benito Juarez and his capital were being chased from pillar to post.

Felix Diaz, as does his uncle, seems to bear a charmed life. In the six years he was chief of police of the City of Mexico his life was attempted a number of times. The Mexican character is boyish in love of the spectacular. It is a hero worshipping people. The latest exploit of Diaz in escaping from a death cell and suddenly showing himself at the head of an army will appeal to the characteristic trait of a people that love daring.

COLONEL FELIX DIAZ.

whether in the bull ring or on the battlefield, and is likely to contribute to the cause might otherwise have wanted.

Temperamentally the younger and the elder Diaz are different. The old dictator, suspicious and intolerant, ruled his people with the "mano ferro," the iron hand. Felix was for a larger measure of personal freedom and more than once incurred his uncle's displeasure by the liberality of his views. Felix supported his uncle through the Madero revolution, but when the latter triumphed he went under the yoke with good grace. Up to two months before he organized the flashy little revolution that resulted in his capture and the immediate surrender of Vera Cruz he kept his rank of colonel in the regular army.

While serving under Madero he was visited by envoys of disaffected leaders who represented that the dreamer of Nuevo Leon, with none of the ability of Porfirio Diaz, was a worse tyrant than Diaz had ever been. He was assured of the support of the army if he would take the lead in a revolt. When he reached a decision—and he wasn't long about it—he resigned his commission. With the following of Orozco, Zapata and Aguilar promised him, a Diaz once more issued his "pronouncement." He proclaimed himself chief of all the rebel forces in Mexico and took possession of the city of Vera Cruz, every federal soldier in the garrison deserting to him, as well as the police, firemen and citizen volunteers.

But the Madero government had been warned, and the loyal troops recaptured Vera Cruz after two hours of fighting and made Diaz prisoner.

The order of the court martial was that Diaz should be shot at sunrise on the morning of Oct. 26. But when the news reached the City of Mexico there was dissension in the cabinet over what course the president should take. The majority, including the president's uncle, Ernesto Madero, the minister of finance, and Gusto Madero, the president's brother, who was taken prisoner by Diaz, insisted that he be shot. Without deciding just what to do Colonel Diaz was placed in prison at Vera Cruz and later confined in the Santiago prison, from which he escaped.

OBITUARY

JESSE MERCER.
Jesse Mercer died at his home at Mt. Zion, two and a half miles west of Bladensburg, Wednesday morning at 2 o'clock. His death was due to pneumonia and heart trouble. The deceased was 77 years old and is survived by his wife and three children. The funeral cortege will leave the house Friday morning at 11 o'clock, and the funeral services will occur at the Mt. Zion church, Rev. Joseph Myers officiating. Interment in the Mt. Zion cemetery.

L. J. SHAMBAUGH.
L. J. Shambaugh, aged 65 years, died at his home in the Licking Valley road Monday. Funeral services were held Thursday morning at 10 o'clock at the M. E. church at Pataaskala, Rev. E. E. Stone officiating. Mr. Shambaugh is survived by his widow and a number of other relatives.

JOHN L. AXLINE.
John L. Axline, aged 37 years, died Tuesday at his home near Summit Station, after an illness of a complication of diseases. Last fall Mr. Axline was dangerously injured when he fell beneath a disc harrow when his team ran away. He recovered from the injuries, but never completely regained his health. He was a cousin of J. S. Axline of Summit Station. He is survived by his widow, one son, five brothers and a sister. Funeral services will be held Friday at Summit Station, Rev. A. B. Davis officiating. Burial at the Swisher cemetery.

WILLIAM GUERIN.
William Guerin, 66, died about 6 o'clock Wednesday evening at his home near Dresden. His youngest son, Jay Guerin, died two weeks ago. Mr. Guerin's death was due to pneumonia, from which he had suffered ten days. Miss Ida Guerin, a sister, lives in Newark.

MRS. R. C. MITCHELL.
Mrs. Parlietta Mitchell, wife of Rollin C. Mitchell, well known retired business man, died Wednesday after an illness of several months. She leaves her husband, two sons and four daughters.

BERTHA AMELIA DRUMM.
Bertha Amelia Drumm, aged nearly three months, daughter of Mr. and Mrs. J. H. Drumm of Hancock street, died Thursday morning at 6:30 o'clock after a brief illness of pneumonia.

Funeral services will be held Saturday morning. The funeral party will leave the West Newark home at 10 o'clock, standard time, and services will be held at Brushy Fork church, Rev. P. H. Fry officiating. Interment in Brushy Fork cemetery.

MRS. T. A. COSGROVE'S FATHER.
Word has been received in Newark of the death at Stratford, Ontario, Canada, of Robert White, the venerable father of Mrs. T. A. Cosgrove, formerly of Newark. Rev. Mr. Cosgrove had been called to Port Hope, Canada, about 10 days ago by the death of his mother, and had not yet returned to his home in Asheville, N. C. On last Saturday night he received word that Mr. White had been taken suddenly ill and went to his bedside, death coming on Sunday night.

Mrs. Cosgrove and family left Asheville Monday morning and attended the funeral, which took place this afternoon.

DR. FRANK DAVIS.
Dr. Frank Davis, aged 45 years, son of Jacob Davis, of near Gambier, Knox county, died at his home near Rocky Fork Wednesday night about 3:30 o'clock, death being due to a complication of diseases. The deceased was a native of Knox county and had been in the Rocky Fork vicinity for several years. He had been in poor health, a part of the time being unable to attend to his practice. Funeral services will be held at his home Saturday morning at 10 o'clock.

CARD OF THANKS.
We wish to express our sincere thanks to our friends and neighbors for the kindness and sympathy extended to us in our bereavement in the loss of our beloved daughter and sister; for the beautiful floral offerings; to Rev. Ward, the singers and all who so graciously assisted in this time of sorrow. Mrs. Harriet and Kenneth Smith.

POLES ONCE ON EQUATOR?

Flammarion Discusses a Discovery by the Scott Expedition.

Paris.—Camille Flammarion, the celebrated astronomer, discussing the statement that the Scott expedition found evidence that the south pole had twice been a temperate zone, said:

"The evidence evidently relates to the discovery of fossils of fauna and flora such as have already been found in the arctic regions. These are taken by one school of theorists as proving that the poles once occupied the position of the equator and enjoyed a warm climate, while the two opposite points, now on the equator, were frozen poles."

"The theory is that the obliquity of the earth, which, as every one knows, travels around the sun at an angle of 23 degrees, is liable to great variation. Thus from time to time during the millions of years the earth has existed the poles have changed from place to place on the earth's surface."

"But this is only a theory and one which the exact science of astronomy does not so far support."

Are You a Cold Sufferer?
Take Dr. King's New Discovery The Best Cough, Cold, Throat and Lung medicine made. Money refunded if it fails to cure you. Do not hesitate—take it at our risk. First dose helps. J. R. Wells, Florida, Texas, writes: "Dr. King's New Discovery cured my terrible cough and cold. I gained 15 pounds." Buy it at Hall's Drug Store.

APPLETON.

Remember the entertainment at the M. E. next Saturday night. Admission ten cents.

Mr. Earnest Mouser had the misfortune to fall last Wednesday from the top of a hay mow, while pitching hay to the haler. He fell a distance of about 15 feet, striking the tank of the haler then on to the floor, breaking his leg above the knee. He just barely escaped going into the hospital. At the writing he is getting along as well as could be expected. Dr. Howard of Johnstown is attending his case.

Mr. and Mrs. Fred Norrie are preparing to leave for the Capital City the first of last week.

Several of the farmers have their sugar camps open and up to this time nothing doing.

Mr. and Mrs. Wm. Baker were called to Fredonia the first of last week owing to the illness of their little grandson Ray, son of Mr. and Mrs. A. Brew Wheeler.

Mr. Jasper Katto visited friends in Newark a couple of days last week.

Mr. and Mrs. N. C. Fulton and daughter Frances of Newark spent Sunday at the home of Mr. and Mrs. Aranda Karth.

Mr. and Mrs. M. C. Parsons of Coshocton, Mrs. Martha Parsons of Park, N. Y. and Mrs. Nettie Edwards visited at the home of Mr. and Mrs. Henry Shupper one day last week.

Mrs. Blanche Foster of Concord is assisting in caring for her brother, Ernest Mouser, this week.

Mr. and Mrs. R. Dunlap visited at the home of Mrs. Mary E. Trotter last Wednesday.

GROWS BEAUTIFUL, HEAVY HAIR WE PROVE IT--25 CENT "DANDERINE"

Destroys dandruff—Stops falling hair—Cleans and invigorates your scalp—Delightful dressing.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now. All drug stores recommend it. Apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a comb with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

DESCENDANT OF MILES STANDISH DEAD AGED 92

Was Resident of Woodstock, Near Summit Station, and First Born White Child on Mackinac Island.

Summit Station, Feb. 27.—Death this week called Mr. Samuel Standish, a resident of Woodstock, who was a direct descendant of Miles Standish, a Pilgrim father of more than ordinary fame. Mr. Samuel Standish was 92 years old and was the first born white child on Mackinac Island, Michigan. Rev. G. F. Thompson of this place officiated at the funeral.

This place has reached its golden age, as was evidenced recently when choicest blessings were showered upon our people during the meeting, which was only of a week's duration. The M. E. church members requested Rev. Mr. Davis to hold a series of meetings, which he promised to do if members would join in the good work, which they surely did, and over 65 persons came out on the Lord's side, and said they would live a better life. The new seekers ranged in age from 7 years to 82 years.

All the services were well attended. The church members worked like heroes.

The singing, led by Mr. S. B. Besse, was fine.

The male quartet was composed of Dr. C. H. Bee, H. M. Layton, C. M. Layton and Nelson Palmer. Their singing was fine.

Rev. C. F. Ryan, who preached one of his able spiritual sermons Saturday forenoon, when requested all who was on the Lord's side to rise, the entire congregation arose.

It was remarked by many when little Thelma, the 7-year-old daughter of Mr. and Mrs. Gale Mack of Hebron, made her way to the front, she looked like an angel standing at the altar.

Mrs. Alma Alberry was called to Columbus Monday by the illness of her mother, Mrs. W. Griffith, who is at the home of Mrs. Elmer Hughes.

Mrs. T. J. Sanford was called to Columbus Monday by the illness of her grandson, James Randall.

Mr. C. W. Bell and family of Columbus spent Saturday and Sunday with J. S. Axline and wife.

Mrs. Emma Padley and daughter Freda of Cleveland have been visiting the former's parents, Mr. and Mrs. John Cashdollar.

Mr. and Mrs. Archer Hebron of Columbus spent Friday with Mr. and Mrs. J. T. Myers.

Mrs. M. D. Brock spent a few days last week with relatives in Columbus.

The L. T. L. meeting will be held at the home of Miss Bernice Holcomb next Saturday evening, Mar. 1.

Mrs. Eva Koeke of Columbus is visiting her parents, Mr. and Mrs. T. B. Banner, who is sick.

Some fifty church members met in the M. E. Church Monday night and organized a person helpers' league with the following officers: Dr. C. H. Bee, president; J. D. Holcomb, first vice president, George Shaver second vice president and R. S. Johnson, secretary. The object of the league is to protect the new converts and assist them in the new life and to encourage others to come out on the Lord's side, the good cause should have the hearty support of all God's followers.

RAILWAY AFFAIRS

"Penny" Improvements.

Two more tracks, making four in all, will be laid by the Pennsylvania railroad between Newcomerstown and Dennison this spring at a cost, with other improvements on this section of the system, of approximately a million and a half dollars. Stations will be improved and subways constructed, it is declared.

B. & O. Buys More Engines.

The Baltimore & Ohio railroad is about to place orders for 100 locomotives, which will cost upward of \$2,000,000. The management has called for bids for sixty of the Mikado type, thirty Pacific and ten Mallet engines.

Since Daniel Willard assumed the presidency of the Baltimore & Ohio railroad a little more than three years ago, the company has bought 27,000 freight cars, costing \$26,000,000, and 500 engines, costing \$11,000,000, representing a total expenditure on rolling stock alone of \$37,000,000, exclusive of the engines for which bids were called recently. Including the latest order, the total cost is over \$39,000,000.

Approves Railroad Bond Issue.

Approval was given by the Ohio public service commission to the

proposed issue of \$7,000,000 consolidated mortgage 4 per cent bonds by the Pittsburgh, Cincinnati, Chicago & St. Louis railroad. Proceeds from the sale of these bonds are to be used for the payment of \$3,000,000 bonds of the Steubenville & Indiana railroad, maturing Jan. 1, 1914, and for the purchase of equipment estimated to cost approximately \$2,682,000 and for construction aggregating about \$1,315,300. In approving the issue the commission ordered that the bonds should be sold at not less than 92.

INCREASE IN DEMAND FOR FREIGHT CARS

Railroads operating through this section found themselves considerably short of box cars during the last week, with an increasing demand from shippers for this kind of equipment. Weather conditions for heavy shipment of all kinds of freight were good and motive power was returned to normal efficiency by higher temperatures. Large consignments of grain were moved eastward, and this tonnage was responsible for the shortage of box cars with which to move other commodities. The aggregate volume of business handled, according to reports, was between 6 and 8 per cent more than a year ago. The westbound movement held its own with that of freight moving in the opposite direction, and officials say that there is no sign of a letup in present conditions. Industrial activity throughout this section of the country is showing no abatement. The short-haul business of the big trunk lines between the smaller cities was of heavy proportion.

The fortnightly bulletin of the American Railway Association for the two weeks ending February 15 says that on that date there was a net surplus of 100 cars on the lines of the United States and Canada of 22,153, compared with 37,200 February 1, a decrease of 15,047 cars. There was a gross surplus of 100 cars of 52,709, as compared with 62,945, while the shortage increased from 24,785 to 30,517. In the two weeks ended Feb. 15 the net surplus of box cars of 6307 was changed to a net shortage of 2378 cars, while the net surplus of coal cars decreased from 12,177 to 5947. A year ago at this time there was a net surplus of 12,958 cars, which was a decrease of almost 19,000, compared with the previous report. Extreme winter weather had much to do with the small surpluses at this time last year.

Safety First Rally.

Pittsburgh, as the greatest industrial center in the country, has been selected by the railroads, as the place for what will probably be the greatest "safety first" rally ever held. March 10th is the date for the first meeting.

How can accidents to railway employees be prevented? This question is to be agitated among the thousands of railroad men living in the Pittsburgh district.

This effort to bring to the attention of railroad employees the necessity for care and caution in their methods of work is not the work of railroad officials. It is an effort of the rank and file, for the rank and file, and by the rank and file.

R. L. O'Donnell, general superintendent of the Pennsylvania Railroad, will be chairman of the first big safety rally in Pittsburgh. Employees of the Buffalo, Rochester and Pittsburgh; Baltimore & Ohio; Bessemer & Lake Erie; Pittsburgh & Lake Erie; Pennsylvania Lines East and West; Union, and Wabash-Pittsburgh Terminal railroads will participate in the meeting.

WAX WORKER REPAIRS MODELS IN LOCAL STORES

Girls, what do you think of this? In our midst is a man who is doing wonderful work in the restoration of faded beauty among the women folks. But alack, alas, the women folk are but the figures which adorn our shop windows, and his success with these waxen models would tempt the women seekers for lost beauty to appeal to him.

His name is Billy B. Boyne and he is a celebrated wax modeler. Mr. Boyne is being employed by the leading stores of the city in repairing wax figures used in the display of garments. He makes a specialty of repairing these figures, but he is also a proficient modeler, creating from the original wax Mr. Boyne is a graduate of the famous Christy Wax Works, in E. New, and spent about a year in Paris. He is at present employed at the Carroll store and will later work at a number of other shops in the city.

COSHOCKTON WANTS NEW CITY HALL

Coshockton, Feb. 27.—The city's proposed improvement of the present city hall building will probably be stopped by injunction unless it complies with the requests of the citizens. A petition signed by several hundred citizens protesting the city building department people think it would be more wasted and they want a new building.

HEADED OFF.

"Did you tell her when you proposed to her that you were unworthy of her? That always makes a hit with them."

"I was going to, but she told it to me first."—Houston Post.

Simple New Remedy Has Powerful Action

It seems strange to many people in Newark that the simple mixture of buckthorn bark, glycerine, etc., as compounded in Adler's, has such a quick, powerful action. Our customers state that JUST A SINGLE DOSE usually relieves sour stomach, gas on the stomach and constipation so QUICKLY that it is really astonishing. Many say Adler's is the best bowel and stomach remedy ever sold. R. F. Collins.

LECTURE ON CHURNING BY PROF. GRAHAM

Columbus, Feb. 27.—Every farmer should remember at least three things in his churning, says Prof. W. L. Clevenger, of the dairy department of the College of Agriculture, Ohio State University. The first of these is that proper agitation of the cream in the churn is essential. Unless the fat globules are agitated evenly, the butter produced is not going to be of good grain, and will not be graded as high for market, or even for home purposes.

"The great trouble with many of the 'three minute churns' on the market," says Prof. Clevenger, "is that they do not give sufficient agitation. The butter, as a result of this lack, is not sufficiently developed and contains more than the legally permitted amount of water, as well as considerable buttermilk. If a barrel churn is used, the results are usually better, as the cream is thrown around at a uniform rate and the fat globules are thrown out of the cream in proper condition."

The farmer should pay considerable attention to the temperature at which his churning is done, says Prof. Clevenger. By observing the effect of various temperatures with certain grades of cream, in the absence of any technical information regarding the amount of fat in the cream, the farmer will be able to determine at just what temperature his cream should be worked. The College of Agriculture is in a position, however, to give advice to those who are seeking same, concerning the amount of cream to be used and the best temperatures for working.

"Don't forget the sanitary side of your churning," is the expert's advice. "You can't be a good churning man unless you are willing to exert a little extra effort and see that your product is first class, and that it is first class without keeping it in a dirty place. Keep the churn clean, and use a good disinfectant. High temperature of your churn will be a real help in making your butter efficient for the market."

"Study the quality of your milk. The quality of a cow's milk is much to do with the time of churning. The feed of a cow should be regulated so that your business is sure to be profitable."

"AT LAST, THE OLD KNABE TONE IS BACK IN A PIANO"

Of course every piano maker and piano carpenter in the world talks about "tone"—and yet one might almost say, at least as far as it concerns piano manufacturing today, the building of pianos within which is real tone is very close to a lost art.

Commercialized pianos are responsible—building them for money, for space, for "looks," for anything but the preservation of old ideals, has brought the piano business, in many ways, to the level of a trade in furniture, in veneer and finish.

Some such thought must have struck the Knabes—Ernest J. Junior, and William III., grandsons of that peerless William Knabe of Baltimore—three years ago, when they left their native city and the Company that had so cleverly absorbed the old Knabe factory, and moved West, seeking a new atmosphere and an environment that was not so surcharged with percentages.

In Cincinnati, free from the yoke of a commercialism that figured out pianos by square inches of wood and decimal points in the allotment of wires, they set about building pianos according to the ideals and traditions of their grandfather, William Knabe I.—with what result!

Why, just as Mr. Buddus says, with the result that

"At Last, the Old Knabe Tone is Back in a Piano."

And what tone!

The birthright, which is theirs and theirs alone (Ernest Knabe, Jr., and William Knabe

KNABE BROTHERS' PIANOS

They are new Pianos, carrying out the ideals of one of the greatest piano builders that ever lived. William Knabe I.—pianos artistically made, adhering to the old traditions and incorporating the new features of compactness and modern cabinet construction.

The Knabe Brothers' Pianos came in three styles—Upright, Grand and Player, in several artistic case patterns.

The Knabe Brothers' Pianos are sold for as little as such pianos could possibly be priced. On easy payments, and your own piano will be taken in exchange for part payment, if desired.

THE RAWLINGS MUSIC CO., NEWARK, O.

Sunday afternoon with her mother, Mrs. Rhoda Conard.

Mrs. Ernest Berger and son Leslie, and Miss Pearl King of Newark, spent last week at the home of Elias Daniels and family and friends in town.

Miss Hazel Daniels returned home last Tuesday after visiting relatives in Newark for a few weeks.

Large crowds attend the revival meetings now in progress at the M. E. church. Rev. K. B. Alexander, pastor. Nearly one hundred have entered the new life since the meetings began over two weeks ago. Old residents say the meetings are the most interesting and best held for years.

W. D. Bishop of Columbus spent from Thursday until Monday with relatives in town.

Mrs. J. M. Brooks is on the sick list.

Mrs. Jesse Stitt visited the past week with relatives in Luckey, O.

Mrs. Sina Berry Monon of Newark is visiting her sister, Mrs. John Berry.

R. S. Wright has sold his property in North Liberty street to Raymond Tatham.

Homer Powers of Iowa was in town from Friday until Sunday afternoon, guest of Mrs. Grace Laycock.

Mrs. Irene Moss of Cincinnati was the guest of Miss Celia Hammond last week.

Mrs. Mra. Severne and Mrs. Ellen Webb were visitors in Johnstown one of last week.

Mrs. Sam. O. Anderson visited relatives in Centerville over Sunday.

Rev. and Mrs. George Marshall of Delaware, who have been guests of their daughter, Mrs. R. B. Alexander, returned home last Monday.

Miss Charles Carroll visited friends in Newark last week.

The condition of Will Meyers, who has been in the hospital for some time, is improving. Miss Laura Boyd is on the sick list. Mr. Vance of Newark is visiting his daughter, Mrs. Ella Danbold.

NO MORE DANDRUFF, FALLING HAIR, SCALP ITCH

Men and women—do you want a splendid head of luxuriant hair free from scalp itch and dandruff? Do you want hair so bewitchingly radiant that it compels the admiration of all who see it? Do you want a scalp as immaculately clean and bright as a newly-minted coin?

Do you want to use a hair dressing that will surely prevent baldness, that always refreshes and invigorates and makes your entire head feel fine?

Then spend a few cents this very day and get a bottle of Par-Lo-Sage at any drug store or toilet goods counter. Use it as directed and you will never care to use ordinary hair creams again.

No poisonous sugar of lead or other injurious ingredients in Par-Lo-Sage. Ask for Par-Lo-Sage.

It has long been a favorite of

HAS HAD NO S'LEEP FOR TWENTY YEARS

Harvard Professor Takes Rest in Twilight State.

Boston.—A Harvard professor who has not slept for twenty years, but has taken his rest in the "twilight state" is the subject of investigations by the psychological laboratory of the university, and the State Psychopathic hospital.

The "twilight state," in which the subject retains consciousness of all that goes on about him, is declared to be a scientific relaxation more satisfying than sleep and restoring the bodily vigor in about half the time required by sleep. While the identity of the Harvard professor is kept secret, Professor Hugo Munsterberg, director of the psychological laboratory at Harvard, who is a personal friend of the sleepless educator, has made a close study of his case. Professor Munsterberg said his experience showed that it is scientifically possible to sleep without complete loss of consciousness.

To assist in experiments at the State Psychopathic hospital on the "twilight state" a special easy chair has been constructed. It is described as a device to aid subjects to relax "as completely as a gallon of molasses on a slab of cold marble."

MUMMY HAD AN AFFINITY.

Letter Tells of "Unrighteous Love" in Egypt 222 B. C.

San Francisco.—Through the finding of a love letter on the withered breast of a mummy in the Golden Gate park museum it was established that affinities reigned and scandals flourished in the days of the Ptolemys in Egypt.

The missive fell out of the mummy's case as it was being placed in a new coffin.

Translated it reads:

Oh, my Golden Poppy, long are the days when I see thee not! My heart is sick with love for thee. Carefully guard our unrighteous love.

The woman died in 222 B. C. with the letter clutched to her heart.

All His Fault.

Irate Woman (to bird dealer)—As for you, you're a thief! All those canaries you sold me yesterday flew away this morning.—Sourire.

MONTH END SALE FRIDAY AND SATURDAY

In Every Wanted Merchandise Priced----To Make Lively Selling

Capudine is a liquid, pleasant to take and quick ly effective. Don't suffer—for your own sake don't suffer—at drug stores, 10c, 25c, and 50c.

Our Loan Service

This company not only affords unquestioned safety for funds and unexcelled facilities for the transaction of any banking or trust business.

An important feature of its service is also that of making loans on real estate security, thereby assisting in the development of the community. Loans are made at 6 per cent and terms of payment are arranged in the most liberal manner to suit the convenience of the borrower.
